

# 4 WAYS TO MASTER THE **ISEE** AT **RENAISSANCE KIDS**

## **1. GROUP CLASSES AT RENAISSANCE KIDS**

These on-site classes are small in size, cost-effective and result-oriented. As an added benefit, our students find them engaging and fun. Classes meet once a week for 10 weeks (24 hours).

## **2. ONLINE GROUP CLASSES**

These classes cover the same content as the on-site group classes but are delivered over the web, right to your home. Classes meet in the evening twice a week for 10 weeks (24 hours).

## **3. ONE-ON-ONE AT RENAISSANCE KIDS**

For a more personal approach, we offer private tutoring on-site. We cover the same material as in the group class but with all the benefits of individual attention. Length and structure of program is flexible depending on the needs of student. We recommend a minimum of 10 2-hr sessions.

## **4. ONLINE ONE-ON-ONE SESSIONS**

Our online private tutoring option offers the same as the group class but with individual attention and at-home convenience. We recommend a minimum of 10 2-hr sessions.

*For more information on space availability,  
please call: (310) 207-4225*

## **PAPER or COMPUTER?** **The Future is Online**

*The Educational Records Bureau now offers two ways to take the Independent School Entrance Examination. Renaissance Kids fully prepares students to take the version that best suits their needs.*

### **Benefits of the Computer-based I.S.E.E.**

1. Eliminates the danger of misbubbling and misalignment, which is a significant source of student error.
2. Provides a timer at the top of the student's screen, which assists in time management and increases the chance of finishing all the problems on the test.
3. Allows students to work non-linearly by providing a navigation bar, so that students can revisit problems.
4. Allows students to build on the endurance developed through video games and other online activities. Additionally, the familiar format makes the test feel less of a chore.

*Renaissance Kids provides the I.S.E.E. readiness course that prepares students fully for either format.*

We've taken decades of classroom experience and created a revolutionary web-based homework monitoring system that collects information about the way your child thinks, approaches questions, and manages time, in order to isolate weaknesses in subject knowledge, solidify knowledge gained during the course and relieve test anxiety.

*Students who sign up early have the chance to utilize EduCAD™ and Foundations starting June 15<sup>th</sup> and to eliminate the knowledge attrition associated with summer vacation.*

**You can watch a video demonstration of our online system, and run through a demo version, by visiting:**
